

CHOICES 2017

From teens who attended Choices 2016:

CHOICES gave me the realization that drugs can easily work their way into your life.

This event opened my eyes that it can happen to even the best of us.

The first choice you make to do something is the most important.

I now realize that addiction can happen to anybody.

And this from a Parent:

Students today have such easy access to alcohol and drugs like marijuana. I'm worried about my teenager. I'm also worried about the attitudes of other parents who think it is ok for kids to drink at this age and allow them to drink in their homes. They don't really see the dangers of drinking and marijuana use.
